

Certification Registry of the European Board of Cardiovascular Perfusion

The Certification Registry of the European Board of Cardiovascular Perfusion (EBCP) lists all holders of the European Certificate in Cardiovascular Perfusion (ECCP) whose certificate are currently valid, either through recent EBCP examination or re-certification.

The general European public has a legitimate right to know how and to what extent European cardiovascular perfusionists holding the awarded ECCP keep themselves professionally updated with respect to knowledge and continued practical experience. Furthermore, employing hospitals that assume the special duties of facilitating post-graduate employee education and maintaining quality improvement of medical practice under ISO 9000 standards have privileged access to EBCP confirmation of the validity of their employee's European Certificate.

While some perfusionists may presently be in the process of examination, re-certification, or may have changed country of employment, the following list may not be entirely complete. Additionally, for personal reasons, some individuals have asked that their names not appear in this list.

The EBCP recommends that any institution seeking and not finding the name of a presently employed perfusionist contact the EBCP General Secretary directly for specific information.

This list represents valid certifications as of 02.11.2009
