BELGIAN SOCIETY OF EXTRACORPOREAL TECHNOLOGY

12TH INTERNATIONAL SYMPOSIUM ON PERFUSION Preliminary Program

“Undergoing Cardiac Surgery Anno 2010”

October 2nd 2010
9.00 – 18.00

Hotel Bloom!
Brussels, Belgium

www.hotelbloom.com

**Deadline for
submission of
abstracts
June 15th, 2010
online**

Accredited with 8 points for European
Board recertification.
Accreditation for Belgian doctors provided.

For more info, visit us @:
www.perfusion.be/symp10

<p>Session 1</p> <p><i>Anticoagulation management anno 2010</i></p> <p>Abstract session</p>	<p>9.00 – 11.00</p> <p>Counting until clot formation: still the best way to monitor coagulation in today's patient population? Marco Ranucci, Milan, Italy</p> <p>Early identifying patients with an increased risk of postoperative bleeding: what is the role of fibrinogen? Anders Jeppsson, Gothenburg, Sweden</p> <p>Abstracts</p>
<p>Session 2</p> <p><i>Myocardial protection anno 2010</i></p> <p><i>Cardiac surgery anno 2010</i></p> <p><i>CPB circuits anno 2010</i></p> <p>Abstract session</p>	<p>11.00 – 13.00</p> <p>Myocardial protection: translating evidence into practice Paul Herijgers, Leuven, Belgium</p> <p>Evolution towards hybrid approach in congenital cardiac surgery: what do we gain? Tim Jones, Birmingham, UK</p> <p>Evidence-based used, yet still controversial: the arterial filter Filip De Somer, Ghent, Belgium</p> <p>Abstracts</p>
<p>Session 3</p> <p><i>CBP management anno 2010</i></p> <p>Abstract session</p>	<p>14.00 – 16.00</p> <p>Static versus dynamic blood flow control during cardiopulmonary bypass: which is superior? Staffan Svenmarker, Umeå, Sweden</p> <p>Hemodilution in normothermic cardiac surgery: are we still playing safe? Harry Vermeer, Nijmegen, The Netherlands</p> <p>Is there a significant value of autopsy for quality management of the cardiac surgery patient? Ardawan Rastan, Leipzig, Germany</p> <p>Abstracts</p>
<p>Session 4</p> <p><i>Perfusion quality anno 2010</i></p> <p><i>New perfusion prospects anno 2010</i></p> <p>Abstract session</p>	<p>16.00 – 18.00</p> <p>Exploring the boundaries of perfusion: mathematic modeling for patient related perfusion practice Mike Poullis, Liverpool, UK</p> <p>Evidence-based perfusion strategies: what are they & what do we do with them? Luc Puis, Brussels, Belgium</p> <p>Pumping new life into organ donors: science & obstacles Diethard Monbaliu, Leuven, Belgium</p> <p>Abstracts</p>
